13th June 2016

Dear Ms Brand,

All you need to know about my being framed for benefit fraud is that my ESA award was criminally amended from contribution-based to income-based by someone with the invalid operator ID of '00000000' on 10th June 2011. This person was almost certainly a member of the Fraud team and probably Edward Whiteside. Whoever it was, committed the crimes of forgery and fraud. Because, when this change was made, my wife Brenda was working and I had just received my first income-protection payment immediately setting me up to be framed, this sick degenerate also perverted the course of justice.

In my email to you for which I have not received an acknowledgement, I also informed you that the submission to my appeal tribunal was fraudulent, falsely and maliciously containing fabricated evidence to frame me.

Those who should be reported to the police are: the DWP fraud investigator, Edward Whiteside; Alison Johnston of the Birkenhead Benefits Centre; Alison McLeish of FIS Appeals, Coatbridge and First-tier judge David Hewitt. All of these specimens of human garbage have perverted the course of justice among other crimes. There will be other conspirators too.

I expect an update on this extremely serious matter by 1st July 2016.

If you would like to communicate with me on an unofficial basis my email address is

[REDACTED]

Yours sincerely,

Philip Grace
