

Train the Trainer Concept

The Austrian school system is famous all over the world and has a lot in common with the Swiss and German school system and especially also with the system of the International Schools.

The teachers all have university diplomas (Mag. or PhD) and very experienced teachers get the title Prof. (Professor). They are employed by the Austrian Federal Ministry of Education and are entitled to teach according to the Austrian curricula of High School and Higher Technical School and university .

Austrian High School diploma gives access to universities all over the world as apart from all other subjects English is taught and examined up to the levels C1 and C2 and other foreign languages like French, Spanish, Italian, Russian are included in the curricula. The main language is German (native tongue, C2).

The Train the Trainer Concept used by **LINGUAS** is able to bring Austrian/international education to foreign countries wherever in the world. Austrian teaching experts instruct the teachers in foreign countries about Austrian curricula (schedules), teaching methods and examination levels and requirements. There is a quality guarantee by the cooperation with the Ministry of Education. The project is called Education is Barrier-Free, belongs to LINGUAS and is supported by the Austrian Chamber of Commerce who are interested in the exportation of Austrian education all over the world. The Austrian Chamber of Commerce has bases in countries all over the world which are in direct contact with the Austrian embassies and the Foreign Ministry who also support their projects.

The Train the trainer Concept works for languages, humanities, and other subjects like economy, tourism, soft skills, intercultural business coaching etc.

The basic idea is to send teaching experts to schools, companies, institutions etc. to train the teachers there in entities of 1 to 2 weeks (up to 4 times a year) to be able to teach the methods, levels, curricula (schedules) of Austria. In languages for up to 4 classes/ groups of 15 students 1 Austrian teacher is needed.

In companies the training could also be different: A single Austrian teacher could give direct courses too.

There could be schools participating in Austrian High School Diploma (Matura) or just in courses about languages, economy, tourism with Austrian diplomas (also university diplomas up to B.A., M.A.)
