

Date for your diaries.

Sat 14th July. 10am - Open to all

Skipton Angling Association together with the Wild Trout Trust will be holding a work party on the banks of Embsay reservoir.

This is an open invitation to anyone interested in helping with development of the new wildlife area. So far the area has seen a huge amount of plant growth and an increase in insect life such as butterflies and dragonflies.

The plan for the day is to remove a couple of old pipes that restrict access to the native spawning brown trout and rework at least one of the minor tributaries, All volunteers are welcome.

We ask you wear suitable attire, (hi viz if you have it) and of course be sure to bring a nice flask of tea and a bit of conversation.
